Message from the Administrator and Interim General Manager

Murrumbidgee Council's 2016-2017 Operational Plan continues the work that Murrumbidgee and Jerilderie Shire Council's staff and elected members have put into securing and providing the services the communities of Coleambally, Darlington Point and Jerilderie need to maintain their current level of community wellbeing.

Arguably Council's most fundamental role is the provision of infrastructure and associated services to the community. The 2016-2017 Operational Plan delivers on that charter, incorporating substantial and sustainable expenditure on the major asset classes of roads, bridges, water and sewer in 2016-2017.

Among the more than \$11.8 million worth of capital projects planned to be undertaken by Murrumbidgee Council in the coming financial year are the following significant actions:

| \triangleright | Reconstruction & Sealing Main Canal Road | \$ | 460,119 |
|------------------|---|------|-----------|
| > | Conargo Road Rehabilitation | \$ | 856,086 |
| > | Bencubbin Avenue Rehabilitation | \$ | 688,000 |
| \triangleright | Road Resealing, Resheeting & Rehabilitation | \$ 1 | ,297,082 |
| \triangleright | Roads to Recovery Programme | \$ 2 | 2,373,766 |
| | Culvert Replacements | \$ | 80,000 |
| | Hay Road Kerb & Gutter | \$ | 85,000 |
| | Kerb & Gutter Reconstruction | \$ | 35,000 |
| | Pedestrian Access Mobility Programme | \$ | 35,200 |
| \triangleright | Footpath/Cycleway Construction | \$ | 117,200 |
| \triangleright | Darlington Point Levee Upgrade | \$ 1 | ,465,000 |
| \triangleright | Darlington Point Office Extension | \$ | 120,000 |
| \triangleright | Coleambally Camping Access Road, Signage & | | |
| | Dump Point | \$ | 11,500 |

The NSW Government provided the following information as a result of the merger proclamation. "To provide certainty to communities, the NSW Government's policy position is that rating structures and categories in place prior to the establishment of the new council will be maintained for a period of four years. The proclamation will require new councils to apply the rating structure, rating categories and subcategories that applied in each former council area for 2015-16 in 2016-17. This ensures there are no changes to rate paths for the first year of the government's committed four-year rate path freeze for new councils."

Accordingly, the former Jerilderie Shire ratepayers will incur a 10% Special Rate Variation as was approved prior to the merger.

Council is also looking at measures to further spread the word about our community and some of the wonderful projects and events that are held within the Coleambally, Darlington Point and Jerilderie townships through our involvement with Riverina Regional Tourism and the Riverina Localist program. This initiative provides potential visitors and investors with information and advice about what this region has to offer.

With a view to attracting and supporting industry and business operators to the shire, Council will continue to work collaboratively with local industries to identify means and assist in securing external grant funds to grow the agricultural and value adding businesses currently operating within the Shire. In so doing, we will be actively encouraging, promoting and facilitating the sustainable development of the Shire.

Contained within the Operational Plan is the expenditure of the \$5 million Implementation Funds provided by the NSW State Government to facilitate the merger of the former two councils.

The merger will include significant work on harmonising and defining levels of service, carry out workplace change, and provide efficient communication facilities. It is expected that there will be significant surplus funds from this \$5M unspent on implementation, these funds will be added to the Stronger Communities Funds.

In addition, the NSW State Government has provided Council with the \$10 million Stronger Communities Fund. This fund has been established by NSW Government to help Council improve community infrastructure and services.

The fund includes an allocation of \$1 million to a community grant programme where local incorporated not-for-profit community groups can apply for up to \$50,000 for projects that build more vibrant, sustainable and inclusive local communities. The remainder of the fund is to be allocated to a major projects programme for larger scale priority infrastructure and services projects. Allocation of funds to specific projects will be from Local Representation Committee (LRC) recommendation.

In the coming 12-month period, Council will again go out to its community to help shape the strategic vision for the future. This process will assist the development of a new Community Strategic Plan to encompass the views and needs of those who reside in the newly created Murrumbidgee Council local government area.

Austin Evans Administrator

What are the key themes of these plans?

In order to achieve the vision for our shire to "preserve and enhance the lifestyle of our communities by encouraging, promoting and facilitating the sustainable development of the Shire" we have set objectives which will drive the actions that Council takes and the decisions it makes over the next eighteen years. The strategic objectives are classified by the following themes:

Our People

To achieve enhanced well-being and quality of life for our people Murrumbidgee Council needs to offer services and activities to support an active lifestyle within a safe and connected community.

These services include open space, parks and gardens, recreational areas, pools, library services, community centres, halls and cultural events.

Medical services are critical to our community and whilst the provision of these services is not the Council's responsibility, Council must do all in its power to ensure that a range of health and community services are available to all.

All programs and services are provided to ensure availability to ALL in the community including families, young people, Aboriginal, aged and people with a disability.

Our Economy

A strong economy is important to ensure the wellbeing of our people and sustain us into the future. As well as Economic goals in this Plan Murrumbidgee Council will develop a separate Economic Development Strategy to focus on the key issues including employment opportunities, support for existing and developing businesses and affordable housing.

The shire has a diverse range of economic and investment opportunities including agricultural, horticultural, manufacturing and tourism.

Our Environment

The community expect Murrumbidgee Council to act as guardians of our natural environment ensuring promotion of a shared understanding of land us whilst also identifying and protecting flora and fauna and habitat corridors.

Infrastructure is the foundation of all our activities, whether that be roads and bridges, public parks, community buildings or water and sewer facilities.

Council needs to ensure the maintenance and continuous improvement of existing and future infrastructure.

As custodians of these community assets Council must ensure responsible asset management and replacement programs are in place to safeguard our future.

Leadership

This theme is about ensuring strong leadership shire wide (not just in Council), good governance and active community participation in decision making processes.

These four themes underpin the work that Murrumbidgee Council carries out in providing the services its community needs as well as its role in advocating

on a range of other matters to improve and enhance our region. These guiding principles, developed following extensive community consultation, are the basis for Council's activities throughout the term of the Community Strategic Plan as well as the service delivery included within the Murrumbidgee Shire Council Operational Plan 2016-17.
