
MURRUMBIDGEE COUNCIL
**OPERATIONAL PLAN
AND BUDGET**

**2024
-
2025**

ACKNOWLEDGEMENT OF COUNTRY

We pay respect to the traditional custodians of the lands and waters of the Murrumbidgee Local Government Area and to all Aboriginal Elders, past, present and emerging. We are committed to honouring the continuing connection that First Australians hold to Murrumbidgee's land, waters and community, as one of the oldest living cultures in human history.

Pictured is local girl Kizzi admiring the incredible 'Yo-thun-ing-yuna-ngarratya' mural created by 4 Barundji/Barkindji artists: Elsie Black, Gertrude Gittins, Eileen Ballangarry and Sos Hawkins. We thank them for generously allowing us to share this magnificent image.

OPERATIONAL PLAN

The Operational Plan is a one year plan that gives details about the individual projects and activities that will be undertaken in the coming financial year. These specifically relate to the commitments made in the 2022-26 Delivery Program, which in turn underpins the Community Strategic Plan.

TABLE OF CONTENTS

INTRODUCTION

Executive Summary

Budget Summary

PART 1: OPERATIONAL PLAN ACTIVITIES

This part includes our 2024-25 activities as well as a forecast for the coming three financial years. This encompasses both new activities and activities that are expected to be carried over from the 2023-24 Operational Plan. Budget information is integrated into the activity listing.

PART 2: FINANCIAL INFORMATION

This part includes forecasts and projected financial statements for the 2024-25 financial year.

PART 3: STATEMENT OF REVENUE POLICY

This part provides Council's Statement of Revenue Policy as required under the Integrated Planning & Reporting Guidelines.

This provides information regarding the levying of ordinary rates and annual service charges for the 2024-25 financial year, our pricing policy, and details of our proposed borrowings.

It also includes Council's 2024-25 Fees & Charges.

INTRODUCTION

EXECUTIVE SUMMARY

Our 2024-25 Operational Plan is a one-year plan that details the individual projects and activities that will be undertaken in the financial year to achieve the commitments made in the 2022-26 Delivery Program.

It includes a detailed budget, our 2024-25 Fees and Charges, and a Statement of Revenue Policy.

Some of the many projects and activities planned for 2024-25 include:

- The completion of the Young Street subdivision in Darlington Point, as well as the construction of two 3-4 bedroom homes in the same.
- A second year of delivering FOGO and recycling services across our LGA.
- The development of a Reconciliation Action Plan.
- Close to \$6 million of road repair works to be fully funded by the Disaster Recovery Funding Arrangements and Regional Emergency Road Repair Fund, with another combined \$7m estimated for the 2026 and 2027 financial years.
- The finalisation of Council's website upgrade.
- The construction of four 2-bedroom homes in Jerilderie.
- The review and update of Council's suite of Integrated Planning & Reporting documents following the local government elections in September 2024.

- A new lift and change public toilet to be constructed at Luke Park in Jerilderie.
- Continuing to undertake business feasibility studies to identify potential sources of own-source revenue for Council.
- The redevelopment of our Coleambally depot and an extension to our Darlington Point office.
- The continuation of Council's traineeship program to develop local talent and promote workforce participation.
- The installation of a second reserve tank at Darlington Point's water facility.
- Continued advocacy for issues important for our area and Council, including participation in the Newell Highway and Sturt Highway Taskforces, lobbying for improved communications and connectivity and infrastructure funding, and continuing to advocate for legislative change to resolve issues with the accounting treatment of Rural Fire Service assets.

This is all on top of continuing to deliver a wide array of community programs, facilities and programs: bank agency services; grants and scholarships; library services; recreational facilities; parks and gardens; events and youth programs; and waste, water, and sewer services, to name but a few.

Budget Summary

For this 2024-25 financial year, the focus of our budget preparations has been on improving visibility and clarity of the budget figures for staff, Councillors and community. The format of this *Operational Plan* has been restructured to fully integrate budget allocations into the listed activities.

While Council's budget is a living document, projections have also been provided for the coming three years.

As always, Council aims to maintain its target unrestricted cash position over the coming years to provide flexibility to respond to potential budget shocks in an inflationary period.

Key factors considered in the budget included:

- **4.5% rate peg.** Each year the Independent Pricing and Regulatory Tribunal (IPART) sets the rate peg, which determines the maximum percentage amount by which the Council may increase its general rates income for the year. Murrumbidgee Council's rate peg for 2024-25 was set at 4.5%, with no population growth allowance.
- **Estimated wage growth of 3.5% and a super guarantee increase of 0.5%.** The *Local Government (State) Award 2023* mandates additional award payments of \$1,000 or 0.5% of the employee's annual salary (whichever is the greater) for many employees. This has also been provided for.
- **Roads funding requirements.** Each year, Council receives funding from a number of programs, including the *Regional Road Block Grant Program*, and the *Roads to Recovery Program*. Council has budgeted to ensure that it will meet its own-source expenditure requirements under these funding arrangements.

As always, Council faces many unknowns in drafting its budget: at the time of writing, the amount of the Financial Assistance Grant that Council will receive is unknown, as is the amount of the Emergency Services Levy—two of the most significant items in Council's budget.

The 2024-25 budget projects that Council will receive income from continuing operations of \$36.6m which includes \$24.1m of grants and contributions and \$10.4m of rates, fees and charges.

Its operating expenditure is projected to total \$29.3m which includes \$7.8m employee costs, \$12.4m materials and services costs and \$8.2m depreciation.

It will also undertake a capital program of approximately \$14.4m.

The Structure of Our Operational Plan

Our 2024-25 *Operational Plan* details the individual projects and actions that will be undertaken in the coming financial year to work towards achieving the commitments made in our 2022-26 *Delivery Program*.

The structure of the document is detailed below:

Part 1. Operational Plan Activities

This part includes our 2024-25 activities as well as a forecast for the coming three financial years. This encompasses both new activities and activities that are expected to be carried over from the 2023-24 *Operational Plan*.

For this year, budget information has been integrated into the activity listing.

Part 2. Financial Information

This part includes forecasts and projected financial statements for the 2024-25 financial year.

Part 3. 2024-25 Statement of Revenue Policy

This part provides Council's *Statement of Revenue Policy* as required under the Integrated Planning & Reporting Guidelines.

This provides information regarding the levying of ordinary rates and annual service charges for the 2024-25 financial year, our pricing policy, and details of our proposed borrowings.

It also includes Council's *2024-25 Fees & Charges*.

PART 1
**OPERATIONAL PLAN
ACTIVITIES**

Part 1: Operational Plan Activities

This part includes our 2024-25 activities as well as a forecast for the coming three financial years. This encompasses both new activities and activities that are expected to be carried over from the 2023-24 *Operational Plan*.

Continuous Service Improvement

We are committed to continually improving our customer service by understanding our residents better, providing more efficient services, and focusing on delivering the things that matter most.

During the 2024-25 financial year, Council will:

- develop our service review program, as required under the Integrated Planning & Reporting framework,
- continue its service review of the Biosecurity program, and
- undertake a service review of its Libraries.

An aerial photograph of a vast forest during sunset. The sky is a mix of blue and orange, with the sun low on the horizon. The trees are mostly green, with some showing yellow and orange hues. A white text box is centered in the upper half of the image, containing the text 'PART 2 FINANCIAL INFORMATION'.

PART 2
**FINANCIAL
INFORMATION**

Part 2: Financial Information

Our annual budget is a blueprint for how and where Murrumbidgee Council spends its money each year and where the money comes from to pay for the services we provide. It sets out how much we will spend on operating and capital expenditure for parks and gardens, roads, public safety, sporting facilities, and a wide range of other functions.

Planning Assumptions

Rates & Annual Charges

Council's major source of operating income is the levying of rates.

Rates will increase by the maximum amount allowable under the rate peg each year. For years beyond 2024-25, a continued increase of 4.5% has been assumed.

User Charges & Fees

Generally, user charges and fees are assumed to increase in line with CPI.

It is noted that not all statutory charges increase annually in line with CPI, however for the purposes of financial modelling these fees are assumed to increase in line with CPI over the long term.

Water and sewer charges are based on projections that move Council towards the *Best-Practice Management of Water Supply and Sewerage Guidelines* issued by the NSW Department of Water & Energy.

Grants & Contributions

Financial Assistance Grant

The Financial Assistance Grant is calculated using a formula that considers the population of the Local Government areas, road lengths, and a number of other factors. Given the complexity of the formula, Council has assumed that these grants will increase in line with the forecast CPI in the budget year.

In the 2023-24 financial year, an 100% advance prepayment of the Financial Assistance Grant was made. As the timing for future years is uncertain, it is assumed that from 2024-25 onwards the payment will be received in the year to which it relates.

Other Recurrent Grant Revenue

Council has assumed recurrent grant revenue will continue with an increase determined by projected CPI.

Investment Revenue

An investment return of 4% has been used, with the funds assumed to be invested being based on budgeted cash balances.

Other Revenue and Income

Other revenue and income amounts are assumed to increase in line with CPI.

Salaries and Wages

The current *Local Government (State) Award 2023* dictates pay increases of 3.5% for the 2024-25 financial year and 3% for the 2025-26 financial year. Beyond that, pay is assumed to increase in line with CPI projections. An additional 0.5% is assumed to account for both future Award increases and staff competency/performance increases.

Required superannuation guarantee contributions are legislated to increase from 11% of wages in the 2023-24 financial year to 11.5% in 2024-25 and 12% from 2025-26. Beyond that, the 12% rate is assumed. This increased rate is payable on increased wages.

In addition, the Award provides for two gross lump sum payments in 2024-25 and 2025-26 to employees with at least 12 months continuous service with the employer as at 30 June 2024, being equivalent to \$1,000 or 0.5% of the employee's salary system rate of pay, whichever is the greater. With around 100 employees, the estimated cost of this payment to Council is approximately \$100,000 for each of these two financial years which is reflected in the LTFP.

Materials, Contracts and Other Operating Costs

Expenditure on materials, contracts and other operating costs has been generally based on CPI. The exceptions to this are expenditures that do not recur every year or have been identified as increasing by an amount different to CPI.

Borrowings

Murrumbidgee Council is currently awaiting Ministerial Approval to advance a \$3m internal loan from its sewer fund for the subdivision of Young Street, with the balance of \$1.5m already funded through the Stronger Communities Fund. This proposed borrowing is reflected in this plan.

Pricing of the Young Street subdivision has yet to be determined. For the purposes of financial projects, sales of the properties have been assumed to be at \$110,000 excluding GST, at a rate of 5 lots per year.

Projected Unrestricted Cash Position

Council has set an unrestricted cash target of \$1.5m and is projected to meet this target over the coming financial years.

Projected Reserve Movements

Caravan Park Reserve

Prior to and during the late-2022 flooding events, a number of cabins were sold from the Darlington Point Caravan Park. The net sale proceeds from these cabins is to be allocated to a reserve to fund future development of the caravan park and implementation of the master plan.

	2025	2026	2027	2028
Opening Balance	190,000	190,000	190,000	190,000
Closing Balance	190,000	190,000	190,000	190,000

Carry Over Works Reserve

Projects not completed at 30 June funded by general revenue and carried forward to following financial year.

Coleambally Town Development Reserve

In accordance with s 495 of the *Local Government Act 1993*, Council may make a special rate towards meeting the costs of any works, services, facilities or activities provided or undertaken by Council within any part of the Council's area. The special rate must be levied on rateable properties that, in Council's opinion, will benefit, contribute, or have access to the proposed works, services, facilities or activities.

Until the 2020 financial year, Council levied a Town Improvement Rate on properties in Coleambally which is retained in this reserve and is proposed to be expended on future subdivision development at Coleambally.

	2025	2026	2027	2028
Opening Balance	532,480	532,480	532,480	532,480

Closing Balance	7,671,119	734,310	799,081	865,472

Domestic Waste Management Reserve

Section 496 of the Local Government Act 1993 (the Act) requires Council to levy an annual charge for the provision of domestic waste management services, which include garbage and recycling services. Under the legislation, Council cannot finance these services from ordinary rates so the charge must be sufficient to recover reasonable costs of providing these services.

	2025	2026	2027	2028
Opening Balance	66,873	67,203	65,991	63,946
Domestic Waste Management Operations	330	(1,212)	(2,045)	(2,923)
Closing Balance	67,203	65,991	63,946	61,023

Employee Entitlements Reserve

Provide funds for employee leave entitlements (such as annual leave or long service leave) which have been accrued but not yet paid. The target balance of this fund is equal to the provision for employee entitlements (as calculated annually and reported in Council's financial statements; as at 30 June 2023 this figure was \$3.08m). The movement in this fund will be subject to further review.

	2025	2026	2027	2028
Opening Balance	1,276,986	1,463,174	1,654,017	1,849,631
Leave Obligations	186,188	190,843	195,614	200,504
Closing Balance	1,463,174	1,654,017	1,849,631	2,050,135

Energy Saving Initiatives Reserve

To fund projects that reduce Council's billed energy consumption. At 30 June each year, any budgeted electricity expenditure in excess of the actual electricity expenditure is to be reinvested in the reserve. (This calculation has yet to be undertaken for the 2024 financial year.)

	2025	2026	2027	2028
Opening Balance	-	-	-	-
Closing Balance	-	-	-	-

Financial Assistance Grant Advance Payment Reserve

To set aside Financial Assistance Grants received in advance for the next years' general operations. At the time of writing, the timing of receipt of the 2025 Financial Assistance Grant is yet to be confirmed. Should a prepayment be received, it will be included within this reserve.

	2025	2026	2027	2028
Opening Balance	-	-	-	-
Closing Balance	-	-	-	-

Infrastructure Replacement Reserve

These funds are available for the replacement of Council's infrastructure.

Closing Balance	3,940,435	4,200,009	4,524,422	4,750,615

A woman wearing a grey tank top, black leggings, and a black helmet is riding a bicycle on a paved path. The path is lined with large, mature trees with dense green foliage. The scene is brightly lit, suggesting a sunny day. In the background, there are some park benches and a building partially visible through the trees.

PART 3
**STATEMENT OF
REVENUE POLICY**

Part 3: Statement of Revenue Policy

The Statement of Revenue details how rates and annual charges are set, as well as fees and charges for use of Council facilities and services.

In addition to ordinary rates, Council will levy annual charges for the following services in 2024-25:

- Domestic waste management services
- Water supply services
- Sewerage services

Ordinary Rates

Categorisation of Land

Council is required under s 514 of the *Local Government Act 1993* to categorise all rateable land into four broad categories. The categories are principally determined by the “dominant use” of the land and not by the zoning of the land. Zoning may be considered when determining the category of vacant land. Ratepayers who believe that their property has been incorrectly classified can seek amendment to the categorisation. Further details can be obtained by contacting Council’s revenue staff.

Under s 529 of the *Local Government Act* Council is able to determine a sub-category of the ordinary rate. For the 2024-25 financial year, Murrumbidgee Council will levy rates in the following categories and sub-categories, which are the same as those in the previous three financial years:

Categories (defined by the s 514 of the <i>Local Government Act 1993</i>)			Subcategories
Farmland	s 515 of the <i>Local Government Act 1993</i>	Land is categorised as farmland if it is a parcel of rateable land valued as one assessment and its dominant use is for farming or agricultural production. Rural residential land is not categorised farmland.	Low Intensity
			Medium Intensity Murrumbidgee
			Medium Intensity Jerilderie
			High Intensity Coleambally Irrigation Area
			High Intensity Murray Irrigation Area
Residential	s 516 of the <i>Local Government Act 1993</i>	Land is categorised as residential if it is a parcel of rateable land valued as one assessment and its dominant use is for residential accommodation or rural residential land or, if it is vacant land, it is zoned or otherwise designated for use under an environmental planning instrument for residential purposes.	Coleambally
			Darlington Point
			Jerilderie
			Rural Residential

Mining	s 517 of the <i>Local Government Act 1993</i>	Land is to be categorised mining if it is a parcel of rateable land valued as one assessment and its dominant use is for a coal mine or metalliferous mine. <i>Note: there are no parcels within the Murrumbidgee local government area with this classification.</i>	N/A
Business	s 518 of the <i>Local Government Act 1993</i>	Land is to be categorised as business if it cannot be categorised as farmland, residential or mining. Caravan parks and manufactured home communities are to be categorised business.	Coleambally
			Darlington Point
			Jerilderie
			Solar

Valuations

Under the *Valuation of Land Act 1916* Council is required to use the most current land values when calculating ordinary and special rates. These values are provided by the NSW Valuer General (VG), the independent statutory authority responsible for determining land values in NSW. The latest values provided by the VG are being used for levying rates in the 2023-24 rating year have a base date of 1 July 2022. These valuations will also be used for the coming rating year, 2025-26, with new valuations anticipated in 2026-27.

Rate Peg

The NSW Government introduced rate pegging in 1978. Rate pegging limits the amount by which Council can increase its rate revenue from one year to the next. The amount of the rate peg was previously set by the Minister for Local Government, but from 2011-12 has been set by the Independent Pricing and Regulatory Tribunal (IPART) using a Local Government Cost Index and Productivity Factor. All councils are subject to the annual rate peg unless otherwise covered by an approved variation. IPART determined a 2024-25 rate peg for Murrumbidgee Council of 4.5%, which included a zero-population factor.

Rates Harmonisation

During the 2020-21 financial year Council worked through a process to adopt a harmonised rate structure to take effect from 1 July 2021. The process was guided by the legislative requirements set out in the *Local Government Act* and the *Local Government Amendment (Rates) Bill 2021*.

The phasing in requires the retention of existing categories and sub-categories for the duration of the harmonisation period, with the harmonisation of farmland assessments to be undertaken over five years, finishing in 2025-26.

Rating Structure

The following table provides a summary of the 2024-25 rates structure.

Rating Sub-Category	No. of Assessments (May 2024)	Base Amount (\$)	Ad Valorem Rate (c / \$ land value)	Forecast Income (\$)
Residential - Coleambally	266	100	0.00479364	66,735

Farmland - High Murray Irrigation	159	300	0.00208876	740,993

Billing Methodology

The *Local Government Act* provides for rates to be paid either in lump sum by 31 August or by four quarterly instalments, due:

- 31 August
- 30 November
- 28 February
- 31 May

Variations to Rate Revenue

The estimates of rate revenue for 2024-25 comply with the relevant provisions of the *Local Government (General) Regulation 2005*, *Local Government Act 1993* and the *Council Rating and Revenue Raising Manual*.

Variations will occur throughout the budget year between the estimated rate revenue and the actual income received. Reasons for these variations include:

- Properties being withheld from rating, pending revised valuation particulars from the NSW Valuer General. This occurs when properties are subdivided and new valuation particulars are provided for the newly-created lots. This usually results in an increase in the valuation base for the following year.
- Properties being rated for previous years upon receipt of new valuation particulars. Council's ability to rate is contingent upon the Valuer General's supply of respective land valuations. This may result in some properties not being rated for a particular year until subsequent rating periods. This artificially inflates the rating revenue received for the year in which the rates are actually levied.
- Previously non-rateable properties becoming rateable during the year and vice-versa
- Amalgamation of assessments

Domestic Waste Management Service Charges

Council is required under s 496 of the *Local Government Act 1993* to make and levy an annual charge for the provision of domestic waste management services for each parcel of rateable land for which the service is available.

FOGO and Recycling Streams

From July 2023, the townships of Coleambally, Darlington Point and Jerilderie moved to a three-bin system for kerbside waste collection. The three streams of kerbside waste collection are:

- General waste -red lid
- Recycling - yellow lid
- Food Organics and Garden Organics (FOGO) - bright green lid

Schedule of Charges

Type	No. Services	Annual Charge	Rate Per Week	Forecast Income
<p>Domestic Waste Management Service – Residential/Business</p> <p><i>Purpose:</i> Cover cost of Council’s three-stream waste and recycling collection services (including transportation and processing) plus the whole of life cost for managing waste including the remediation of landfills.</p> <p><i>Applies to:</i> each occupied residential or business unit which includes dwellings and each separate occupancy in any flat, townhouse, duplex, dual occupancy, including non-rateable residential premises. It does not include service for a secondary dwelling (as defined in the <i>Environmental Planning and Assessment Act 1979</i>) which are charged as an additional service.</p> <p><i>Provides:</i> Access to Council’s three-bin collection service consisting of:</p> <ul style="list-style-type: none"> • Weekly collection of a 240L FOGO bin 	1,320	\$330	\$6.35	\$435,600

<ul style="list-style-type: none"> Fortnightly collection of a 120L or 240L general waste bin Fortnightly collection of a 240L recycling bin One kerbside clean-up service per year 				
<p>Domestic Waste Management Availability Charge</p> <p><i>Purpose:</i> Fund waste management facilities to meet potential future demands from vacant land.</p> <p><i>Applies to:</i> All vacant parcels of rateable land within Council's waste collection area.</p>	127	\$49	\$0.94	\$6,223

Additional Services

The cost for additional services is shown in the table below:

Type	No Services	Annual Charge	Rate Per Week	Forecast Income
FOGO 240L (collected weekly)	4	\$72	\$1.38	288
Recycling 240L (collected fortnightly)	36	\$108	\$2.08	3,888
General Waste 240L (collected fortnightly)	239	\$200	\$3.85	47,800

Water Supply Services

Access Charges

The water service access charge is a fixed annual fee for the connection to, or ability to connect to, the water supply system. This includes:

- residential and non-residential properties that are connected to a Council water supply system and supplied with water from that system; and
- vacant land situated within 225 metres of a Council water main whether or not the property is connected to Council's water supply provided it is possible to supply water to the property if requested

A water access charge is levied on all units or dual occupancy properties (whether strata subdivided or not).

It is charged in advance and properties with multiple water connections are levied multiple charges.

This charge is set to cover asset replacement and recurrent costs. For 2024-25 Council will apply an increase of 5% for most water access charges. An increase of 15% will apply to a small number of business access charges in Coleambally and Darlington Point as we move towards the full implementation of the *Best-Practice Management of Water Supply and Sewerage Guidelines* issued by the NSW Department of Water & Energy.

Consumption Charges

Water consumption charges will be issued separately in four quarterly accounts and are based on a two-tiered system with the first tier covering basic household water consumption of 250kL per annum.

Since 2007, under the *Best-Practice Management of Water Supply and Sewerage Guidelines*, all new units are required to be metered and billed individually.

Land which is exempt from ordinary rates (pursuant to sections 555 or 556 of the *Local Government Act 1993*) is not exempt from these charges as the charge is limited to the cost of providing the service to the land (section 503(2)).

Schedule of Charges

Murrumbidgee North

Water Access Charges – Potable or Recycled Networks

Where a property has more than one occupancy (e.g., a granny flat) an additional 20mm access charge will be levied per occupancy.

Meter Size	2023-24 (\$)	2024-25 (\$)	% Change	Assessments	Projected Income (\$)

Sewerage Services

Access Charges

The sewerage service access charge is a fixed annual fee for the connection to, or ability to connect to, the sewerage supply system. This includes:

- residential and non-residential properties that are connected to a Council sewer mains
- vacant land situated within 75 metres of a Council sewer main whether or not the property is connected, provided that it is possible to connect the property to the sewer main if requested

All units (whether strata title or not) are levied the sewerage access charge in accordance with the tables below.

Where a property has more than one separate occupancy (e.g., a granny flat), excluding non-rateable properties, an additional charge shall be levied per occupancy in accordance with the *Best-Practice Management of Water Supply and Sewerage Guidelines*.

	32mm+	1,611	1,723	7%	16	27,568
					512	360,687

Usage Charges

In line with best- practice sewerage pricing, residential customers receive a uniform annual sewerage bill, and hence no usage charges apply to these assessments.

For non-residential customers an appropriate sewer usage charge is required for the estimated volume discharged to the sewerage system, together with an access charge based on the capacity requirements that their loads place on the system relative to residential customers.

The volume discharged is estimated at 50-90% of the water usage for the same assessment dependent on the type of business.

Meter Size	2023-24 (\$)	2024-25 (\$)	% Change	Billable kL	Projected Income (\$)
Residential	N/A	N/A	N/A	N/A	N/A
Non-residential	0.93	0.96	3%	18,514	17,219
				18,514	17,219

Non-residential assessments may also attract a Liquid Waste annual charge and usage fees, which are both set out in Council's *Fees and Charges*.

Pensioner Rebates

Holders of a Pensioner Concession Card who own and occupy a rateable property are eligible for a pensioner concession. Section 575 of the *Local Government Act 1993* provides for a pensioner rebate of:

- up to 50% of ordinary rates, to a maximum of \$250
- up to 50% of water supply rates, to a maximum of \$87.50, and
- up to 50% of sewerage rates, to a maximum of \$87.50

Under the State's existing mandatory Pensioner Concession Scheme, the State Government reimburses the Council 55% of the pensioner concession. The Council funds the remaining 45%.

Interest Charge

Interest, in accordance with section 566(3) of the *Local Government Act 1993*, is charged on overdue rates and charges. The Minister for Local Government determines the maximum amount of interest on an annual basis.

The charge is simple interest charged at a percentage per annum, calculated on a daily basis. Council has the ability to reduce and/or waive interest in extenuating circumstances and will consider such requests under its *Rates, Fees & Charges Hardship Policy*.

Council will adopt the maximum amount as determined by the Minister for 2024-25, which is 10.50% per annum.

Borrowings & Other Revenue Sources

Borrowings

Murrumbidgee Council is awaiting Ministerial Approval to advance a \$3m internal loan from its sewer fund for the subdivision of Young Street, with the balance of \$1.5m already funded through the Stronger Communities Fund.

Council is also actively seeking funding for the redevelopment of the Darlington Point Caravan Park (as indicated below), and, should it be successful in obtaining this funding, intends to seek external borrowing to fund its share of any co-contribution.

Grants

Murrumbidgee Council will always seek to leverage grant or other funding opportunities that benefit our community. This includes those which specifically support Council's strategic and operational priorities (such as those identified in the *Operational Plan* and *Delivery Program*) but also extends to other projects that may have been unforeseen at the time of preparing those plans.

Council has identified a number of projects for which it specifically intends to seek funding as the opportunity becomes available. A number of these projects are identified in the activity listing as "subject to grant funding". These include, but are not limited to:

Young Street Housing Development: The Young Street Housing Development project proposes to build up to 17 3- and 4-bedroom houses over 3 years in the Young Street subdivision at Darlington Point to assist in addressing the short-to-medium term housing shortage in the area. Should funding become available, Council proposes to contribute 17 lots from the Young Street subdivision to this project.

Caravan Park Redevelopment: Council has completed a masterplan for the Darlington Point Caravan Park which it intends to seek grant funding to implement. Council had previously secured funding to commence this project under the *Building Better Regions Fund*, which was subsequently discontinued on 24 October 2022.

Water Facility Upgrades: Council recognises that the water facilities in its three townships are urgently in need of upgrade or replacement. Funding was secured as part of the *Stronger Communities Fund* and Council has received further commitments from the *Safe and Secure Water Program*. These works will be undertaken as soon as possible subject to the concurrence of NSW Public Works but capital expenditure is not included in the budget until the quantum and timing of costs can be ascertained.

Other Projects:

- Medical centre construction and/or extension
- The construction of early learning centres/preschools
- Hall upgrade works
- Park upgrade works
- Sports ground upgrades

- Masterplan development and implementation
- CCTV camera installation
- Installation of lighting at Darlington Point boat ramp
- Kerb and gutter reconstruction
- Bridge replacement
- Footpath/cycleway reconstruction

Disaster Recovery Funding Arrangements (DRFA)

Natural disaster declarations were issued for the Murrumbidgee Council Local Government Area in August 2022 (AGRN 1030) September 2022 (AGRN 1034) in relation to severe weather and flooding events in the region.

Council expects to receive a total of nearly \$7.8m to undertake reconstruction and repair work on its roads following this event. This amount will be expended over the coming financial years.

Fees & Charges

All of Murrumbidgee Council's fees and charges that are not subject to statutory control are reviewed on an annual basis prior to finalisation of the Council's annual operating budget. However, fees and charges can be reviewed and approved at other times by the Council in accordance with the Local Government Act and Regulations.

Should there be legislative changes, statutory fees will be updated accordingly. In accordance with section 610F of the *Local Government Act 1993*, Council will give at least 28 days public notice of changes to non-statutory fees and charges already adopted within the *Operational Plan*.

For details of the various methods of pricing which have been implemented by the Council, refer to the *2024-25 Fees & Charges* annexed to this document and to Council's *Fees & Charges Pricing Policy*.

Discretionary fees have generally been increased by 3.6% in line with CPI and further reviewed by relevant Council staff.

Pricing Policy

A	Subsidised or Community Services Obligation	The service is provided at zero cost to the ratepayer (full subsidy pricing) or less than the full cost of the service (partial subsidy pricing). The subsidy may be covered by cross-subsidisation (use of general revenue) or specific purpose funding (such as Government grant funding). This pricing policy may be appropriate when (a) the service is consumed by the community as a whole rather than having an exclusive benefit to individual users (b) as a short-term approach to stimulate demand for a service (c) where a market or cost recovery approach may result in widespread evasion or inappropriate adoption (d) where the service is targeted at low-income earners; or it is known that customers are unable to pay, but should nevertheless have access to the services on social justice grounds (e) where there is a low number of other service providers and Council believes there is merit in the service being provided (f) it is impractical to start collecting more (for example, due to the historical development of the facility, service or goods) (g) to encourage certain behaviours
B	Determined by Legislation	The price is set by legislation (usually State Government legislation), and Council does not have the opportunity to vary the cost. Where there is discretion within the statutory requirements, Council will set statutory prices at the maximum available.
C	Market	Services are priced on a full cost recovery basis, plus an allowance for profit. The setting of these fees will also be undertaken following National Competition Policy principles and the Trade Practices Act: competitively neutral pricing requires Councils to ascribe costs to their significant business operations that would normally be paid by non-government businesses providing the same services (e.g., rates, taxes and charges, and a rate of return on capital). This pricing policy may be appropriate where the service provided competes with the private sector, or to provide facilities, services or goods for customers at a price that enables Council to make a profit or to reduce losses to maintain financial viability.
D	Cost Recovery	Full cost recovery pricing will aim to recover all direct and indirect costs in providing a service, or as much as reasonably practicable, where the cost is less than market rates. This may be appropriate where it is known that customers are willing and able to meet cost recovery, but it is viewed as inappropriate for a public authority to seek to profit from it.
