

Quarterly Report for Councils**NSW RFS MID MURRAY ZONE****Report on Rural Fire Activities 1st October 2015 – 31st December 2015****GENERAL OVERVIEW**

The 2015/16 fire season is shaping up to be a busy one again with 65 fires occurring across the zone since the start of the Bush Fire Danger Period on October 1st. As expected most fires have been grass or scrub fires although a number of fires involving machinery were responded to by brigades. Unfortunately two homes were also lost to fire during December in the Conargo and Jerilderie areas.

Hot and stormy weather during November and December again caused problems with a number of fires started by lightning strikes. To the end of December we had four days of total fire Ban declared in the Southern Riverina fire district. This was two less for the same period last year and it is hoped that this trend continues throughout the summer months.

Summer harvesting activities has again proved to be a confusing time for landholders and contractors with many still unsure if they should cease harvesting on Total Fire Ban days. As a result of the uncertainty the Mid Murray Zone Fire Control Centre telephones ran hot fielding enquiries with many callers looking for guidance. As in the past, the MMZ RFS will only issue a request to cease harvesting when the Fire Danger Rating (FDR) reaches extreme or above on TOBAN days. As the RFS does not have the power to ban harvesting activities on high risk days this is advice only and farmers are advised to do a risk assessment based on their own circumstances. If in doubt farmers should cease harvesting until weather conditions improve.

The NSW Rural Fire Service is in the process of reviewing the type of advice given to farmers on TOBAN days and will work with state farmers representative groups and the grain industry prior to next season to try and find a state-wide solution to the problem.

Discussions with FRNSW to develop an alternative Fire Control Centre at the Fire & Rescue NSW training facility at Deniliquin airport have stalled and will not progress any further due to a number of issues that are unable to be resolved. As an alternative, Deniliquin Council have advised the MMZ Manager that an area adjacent to the Deniliquin RFS station has been allocated for a future Fire Control Centre and this option will be further investigated to ascertain its suitability. A media release by the NSW Government on December 10th advising changes in the way emergency services will be funded from 1 July 2017 is yet to be clarified and at this stage it is not known what influence the change will have on future funding options for a new Fire Control Centre.

As we end another year it is fitting to look back on 2015 and reflect on our main achievements and how they have made our community a safer place to live in. The
Page | 1

completion of the RFS Digital Radio Network program in the Mid Murray Zone has given us 100% radio coverage as opposed to around 75% with the old analogue system. This has dramatically increased the efficiency of fire operations across the zone and has been well received by our brigades. Returning to a full staffing level has also allowed our service delivery to return to a high level that is expected by the greater community.

OPERATIONS & INFRASTRUCTURE

Incidents

For the second quarter there were 73 incidents recorded across the Mid Murray Zone giving a cumulative total of 94 for the season so far, a decrease of 35% on this time last year.

Totals for year to date are in brackets.

	Fire related	Motor Vehicle	Other	Total
Conargo	19 (19)	0 (1)	0 (2)	19 (22)
Deniliquin	2 (3)	0 (0)	0 (0)	2 (3)
Murray	21 (24)	0 (3)	4 (7)	25 (34)
Jerilderie	8 (8)	2 (4)	0 (1)	10 (13)
Wakool	15 (16)	1 (1)	1 (5)	17 (22)
Totals	65 (70)	3 (9)	5 (15)	73 (94)

Capital items

- There were no new tankers delivered this quarter:
- New Tankers allocated in the 2015/16 budget allocation:
 - Category 6 heavy tanker – Booroorban brigade
 - Category 1 Village – Koraleigh brigade
 - Category 6 heavy tanker – Jerilderie brigade
- Second hand tanker allocated in the 2014/15 budget allocation:
 - Category 1 dual cab – Jerilderie (yet to be delivered)
- New Stations allocated in 2015/16 – Conargo brigade

LEARNING and DEVELOPMENT

The focus on training in this quarter has been the recruitment and training of radio operators for the Mid Murray Zone FCC. Past efforts to form a communications group

have been unsuccessful due to various reasons ranging from doubling up on existing RFS members time to other people being unsure on what the role involves.

After reviewing past attempts it was decided to hold an information night and sausage sizzle at the Fire Control Centre to inform interested people on what the RFS does for the community and how people can assist by joining the RFS and training as a radio operator, an essential role during large fire campaigns.

The night was well supported with around twenty people attending and eight of those people have completed the first phase of training. It is anticipated that the communications group will continue to expand and become more operational as skills are gained by those unfamiliar with RFS systems.

Mainstream training has been ongoing with a number of courses being run across the zone for new and existing members interested in obtaining qualifications or refreshing existing ones prior to the fire season. It is pleasing to see an increased interest in RFS membership across the zone as new membership in brigades generally creates new enthusiasm and leads to more stable brigades.

COMMUNITY SAFETY

Hazard reduction programs undertaken by Councils have largely been completed with spraying and grading of road sides the main focus across the zone. State Mitigation crews have completed a number of hazard reductions in and around Neighbourhood Safer Places (NSP's) and radio sites across they zone. SMS crews also completed a substantial hazard reduction in Jerilderie as part of the Community Protection Planning process adopted by the Bushfire Management Committee.

Councils are encouraged to lodge reimbursement claims through the MMZ Community Safety Officer once programs are completed as funding has been allocated in the 2015/16 budget allocation. The reimbursement process is relatively straight forward and can be claimed by providing an invoice and supporting evidence of expenditure undertaken on hazard reduction.

The no burn period for the Mid Murray Zone commenced on December 1st for most LGA areas with permits not being issued for the December – January period. Special permits will be considered in some areas depending on location and a genuine need to burn. Special permits are only available to those farmers who may have contractors booked for land forming or similar works and who can meet the strict conditions applied. Special permits are not issued in instances where landholders simply want to burn during the December – January period.

To date there have been 121 permits issued across the zone, down 25% on the same time last year.

The MMZ Schools program has been ongoing with the Community Safety Officer visiting schools across the zone to reinforce the fire safety message to students. This program has been ongoing for a number of years and has proven popular with many

of our younger generation showing interest by joining brigades to help their community.

A solid fuel ban is again in force in all State Forests and National Parks over the summer period which will assist in keeping the number of fire escapes to a minimum. Unfortunately camp fires are a known cause of fires across the state due to the carelessness of people who insist on lighting them on high risk days.

Business and Management

Finance

The 2015/16 Rural Fire Fighting Fund budget for the Mid Murray Zone was released on November 23rd 2015.

Key points:

- Total budget allocated \$5,895,499 an increase of 1.8% on the 14/15 allocation.
- Zone Councils contribution \$678,805 before reimbursements, up \$42,334.00 or 6.5% on the 14/15 contribution.
- \$1,134,123 allocated for tankers & vehicles, slightly less than the 14/15 allocation, same number of new tankers received.
- \$145,000 allocated for new stations, up \$50,000 on the 14/15 allocation.
- \$108,699 allocated for fire fighting equipment, up \$14,024 on the 14/15 allocation.
- \$168,291 returned to Councils in reimbursements, down \$34,219 on 14/15.

Overall the 2015/16 budget was what was expected with most capital items bid for allocated. The Zone continues to build its fleet of Cat 6 heavy tankers with the assistance of Conargo, Jerilderie and Wakool Councils. Station builds are progressing where needed with \$95,000 being allocated for a new two bay station at Conargo and \$50,000 allocated for progression of a future new Fire Control Centre project once details are finalised.

The draft 2016/17 allocation bid has been finalised in consultation with senior volunteers and respective LGA advisory committees and will be forwarded to individual Councils for consideration once the RFS bid data base has been updated for 2016/17. Capital items bid for include \$1,044,526 for tankers and \$80,000 for a new two bay station at Booroorban and \$35,000 for power connection to the Hill Plain Station.

Summary

The latest weather outlook for the MMZ over the next three month indicates there is little chance of substantial rainfall however days of high temperatures should be expected throughout January and February. Whilst this is relatively normal for this time of year, the chances of extreme or above fire weather will rest on what winds accompany the expected high temperatures and low humidity. Grassland fuel loadings

are generally light to moderate across the zone with fuel loadings in some areas being discontinuous which will assist in controlling fires when they occur. Fuel loadings in forested areas vary depending on location but remain dry and have potential to escalate into large fires if not contained quickly.

As mentioned earlier, the NSW Government recently announced a change in funding arrangements for Fire and Emergency Services that will come into force from July 1st 2017. The new funding model will replace the current emergency services levy on insurance policies with an emergency services property levy on all properties in NSW. Whilst it is unclear as yet on how the new levy will work, The NSW Rural Fire Service will work with Councils to ensure service delivery in the Mid Murray Zone is not affected.

Regardless of what changes may occur to the way funding is allocated to the RFS, the RFS involvement with local government should not change in regard to fire operations and mitigation. The current arrangements with use of Council heavy plant and equipment during fires are an important part of the MMZ fire fighting capability and should be retained. So too are the hazard reduction programs undertaken by Councils that protect the community and prevent the ignition and spread of fire.

As Councils are aware, the Mid Murray Fire Control Centre located in rented premises in Duncan Street Deniliquin is way past its use by date and should be replaced as quickly as possible. Unfortunately a new standard design medium size FCC capable of handling the number of personnel and associated systems used during major fires is expensive and to date has been outside all Councils capability to partly fund. A proposal will be put to Councils at the next Liaison Committee meeting scheduled for March 2016 to consider the funding options available and look at the possibility of building a new FCC within the next five years.

A project to build an additional airstrip at Jerilderie to allow air operations to continue during strong westerly winds has been funded by the Rural Fire Service Association (RFSA) and is currently under construction. This additional strip will allow a much shorter turnaround time for aircraft when operating in the east of the zone as in the past aircraft had to return to Deniliquin once the wind shifted to the west, severely restricting the effectiveness of air operations.

The NSW Rural Fire Service again thanks all Councils for their continued support and remains committed to building stronger relationships into the future, regardless of what changes may occur over the next eighteen months.

I hope 2016 will be a strong and productive one for us all.
